1. 28 April 1947 broadcast

"The United States of America wishes to turn Mongolia into its colony in order to turn our liberty, our independence and the natural riches of our country to American profit. There was the conference of the big four powers in Moscow, but in spite of that the U.S.A. intends to call for war. The last conference of the big four powers in Moscow could not come to any definite agreement.... Take the masks from the faces of the incendiaries of a new war, and try to struggle against the possibility of a new war."

2. 20 May 1947 broadcast

"The USSR newspaper Pravda published an article saying that the U.S.A. government circles of reactionaries and capitalists intend to get possession of and take advantage of all the world. Such a question concerns the interest of all the peoples of the world, the great ones as well as the small ones. The progressive men of the world want liberty, independence and democratic power. But the government of the U.S.A. is putting obstacles in the way of accomplishing such aims by many countries. At the same time the United States government is supplying the reactionaries of many countries with money and ammunition in order to oppress the progressive and independent peoples of the world, such as the Greeks, Turks, Persians. Thus the U.S.A., in order to support the interest of her capitalists eager for riches, is following such a foreign policy in order to seize all the natural riches of all the countries of the world and to control all the peoples."
